CARGO PROTECTOR KING PIN LOCK

New Slide Bar Increases Security

Patent Pending

PATENTED 4620718

Model AM101- *IMPROVED*

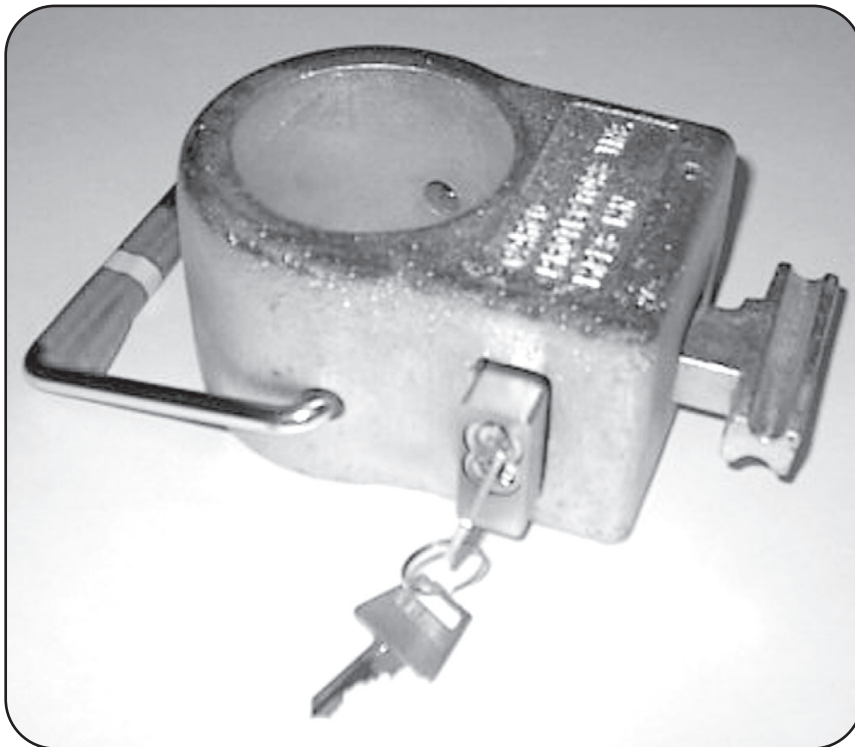

Fits American Padlocks #5200 Series

Model AM107 - *IMPROVED*

Accommodates **BEST** Interchangeable Core

Special Features of the King Pin Lock

- High security. Renders **Bolt Cutter & Power Drill** virtually useless. Padlock body holds the sliding bar in locked position.
- Serviceability. May be assembled or disassembled in less than a minute.
- Durability. Cast from **ductile iron** to withstand maximum abuse.
- Shipping weight approximately 13 lbs.
- Simple construction. Consists of two major parts and the padlock.
- Keying options. May be keyed alike, restrictive key way or master keyed.
- Can be modified to accept Master Padlock keys.

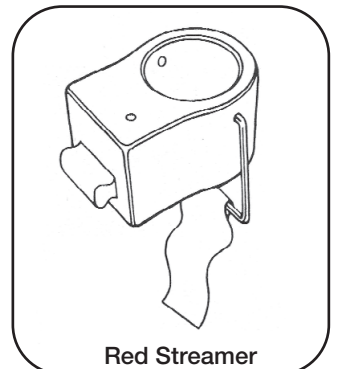

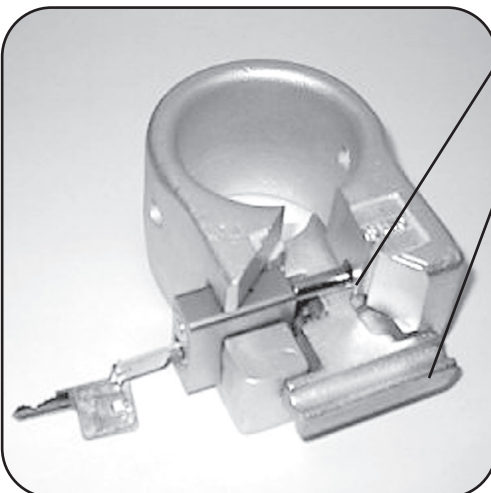

Maximum Serviceability –

Roll Pin has no bearing on degree of security.

1. Tap out roll-pin from bottom side
2. Unlock padlock to open position
3. Withdraw the slide bar.
4. Withdraw the padlock from main body.

Simple Operating Steps

1. To unlock, insert key, turn, and pull.
2. Pull slide bar outward to stop.
3. To lock, push bar inward and push padlock into locked position.
4. Red streamer on handle to alert other drivers.

Red Streamer
